

December 31, 2010

Representative John Boehner  
1011 Longworth H.O.B.  
Washington DC, 20515

Dear Representative Boehner

Congratulations on being elected Speaker of the House

Attached is a letter I sent to my Representative and Senators

RE: Mandate for the New 112th Congress

During the last Congress over \$3 Trillion in Debt was run up by huge spending. This cannot continue.

The people have spoken and elected new representatives and the power balance has shifted.

True reform must take place and now if our Republic is to be saved. Examples follow

- Agencies and policies that have outlived their intended purpose must totally abolished.
- Spending must be out in the open and justified. No more pet projects for districts for non-essential projects.
- Total Federal employees must be capped. No more of the first to go are the Park Rangers at the Washington Monument. We demand real reduction in work force not the shams we get from the bureaucracy.
- Welfare must be reformed and rolled back so that it is not a way of life.
- Food stamp program needs reform to basic foods only.
- Unemployment insurance for 3 years is unacceptable. Longer periods of payments = Longer unemployment see Europe for examples.
- Stop the Monetary Easing policy of the Federal Reserve which is debasing our currency.
- Stop the Stimulus packages, the first \$800 Billion in stimulus did not create one permanent job! The program was an abject failure. Stop all unspent funds in all of these programs.
- Stop the Federal Government Bureaucracy from issuing Regulations not authorized by Congress.
- Secure the Borders and rid the country of those here illegally.
- Government is not the answer to every problem

Please go to work now for the American People and restore our country to its founding principles.
